

## CYCL3

112 Mall Road Burlington, MA  
3,200 Square Feet

Vantage Builders built the 3,200-square-foot location, which includes a fitness studio, reception area and shower/changing facilities. New paint reflects the CYCL3 branding and messaging, while the flooring throughout includes luxury vinyl tile (LVT), painted epoxy and tile. Systems work for the project included the installation of a two-zone HVAC system with rooftop units that provides separate dedicated temperature control for the studio and the rest of the location. A new fire alarm and sprinkler system provides safety for the facility. The plumbing work was made more challenging by the buildings structural slab, which would not allow trenching. All underground plumbing work was completed via a 3x3 access panel.
